DETAILED ACTION

Election/Restriction

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-16 and 19, drawn to a mounting assembly connectors, classified in class 439, subclass 501.
 - II. Claims 17-18, drawn to a shroud for a mounting assembly, classified in class 403, subclass 405.1.
 - III. Claim 20, drawn to a fastening means, classified in class 174, subclass 50.
 - IV. Claims 21-22, drawn to a mounting cable, classified in class 174, subclass 68.1.
 - V. Claim 23, drawn to an electrical security system, classified in class 340, subclass 568.
 - VI. Claim 24, drawn to a cable mounted security system for electrically powered products, classified in class 340, subclass 568.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions VI and I-V are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the various subcombinations do not necessarily have to be used in the combination. The subcombinations have

Art Unit: 2832

separate utility such as mounting assemblies, shrouds, fastening means, cables and security systems not utilizing the specific features of each of the subcombinations.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Lincoln Donovan whose telephone number is (703) 308-3111.

The fax number for this Group is (703)-872-9318.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the Group receptionist whose telephone number is (703) 308-1782.
